

I'm Nominating Katie Chapman because of her inspiration, dedication, and her love for the game. Katie is my quiet leader on my bench, she knows how to get the girls energy up on and off the court. I have coached Katie for two years, she is not one of my starts; but she has worked the hardest, tries the hardest and just wants to learn about the game. Her determination has been amazing, if she keeps this personality trait up she will be one amazing, strong lady doing amazing things with her life. Her attitude is contagious! I wish all my girls had the same determination and drive to be the best that the girls can be. Katie is the first to ask for help or just how to improve her skill (ability) and is the first to volunteer if I need help with the JV team or the recreation volleyball programs that the town runs. Katie just loves the sport and it shows with everything she does during the volleyball season.
